GERMANY'S POWER AUST BE CRUSHED, LONDON ATTITUDE

No Compromise While Militarism Makes Possible Further Dreams of Teutonic Supremacy.

LONDON, Sept. 14. Until Prussian militarism is crushed for all time, both on land and sea, England vill refuse even to consider propositions of peace. That was the emphatic posi-ion take in London today. It is felt that e position of the ailles must be greatly sunderstood if it is believed that any proposal would even be received

Were the war ended today, even though Belgium were indemnified and France re-ceived back Alsace-Lorraine, the great German fleet would remain as a menace to the peace of Europe. England is de-termined that this shall be the last war, officials, from the King down, insist that the real cause of the war was the German dream of world power. A compro-mise now, it is claimed, would mean that at a later date Germany would renew the attempt, and this time the allies might not be able to present their unbroken front. So it is the intention of England to fight on until Germany is forced to consent to a peace that will make her a party for all time to treaties regard as "mere scraps of paper," to be disregarded at will.

The Times teday, commenting on the cuttook, declares only peace concluded in Berlin and the dispersal of the German feet will be acceptable to the British people. It declares that any official who would consent to lesser humiliation of could not withstand popular

disapproval.

The agreement between the allies that peace would be concluded only by an agreement satisfactory to all ended for all time, officials say, the possibility that Germany might be able to make in-dividual terms which would permit her

It is admitted peace may be hastened by the defeat of the Germans in France, and by the crushing of the Austrians by the Russians. There has been a strong urrent in Germany against the war. Only in Prussia was it popular with the people. The majority of the other Gerpreerned. nap, which accompanies this article, Paris would have been in their hands by now. The map, the chef d'ocuvre of Mark Twain, was drawn by him and by the exercise of superhuman insenuity, also engraved by him. It is true that it is somewhat askew, but as General Nelson O. Miles, who never saw the man .is reported to have said:

"It was fully as useful in 1870 when it was drawn, as it is today."

The map was published in the Buffalo, N. Y., Express, of which Twain was owner, on September 17, 1870, and Twain's description follows, together with some testimonials, even more enthusiastic than that of General Miles:
